Game Manual

A Roguelite Snake Adventure

A BitGarden Production

Hazard Catalog

Hazards test your reflexes and adaptability. Learn their patterns, survive the chaos.

Name	Size	Behavior
Rocks	1×1	Stationary obstacles that block movement and projectiles. Hitting the
Saws	5×1	Move along rails, reversing or looping. Time your path to avoid them.
Lasers	Variable	Charge, fire, and cool down on intervals. Telegraphed by red charge
Darts	1×3	Launch in straight lines. Predictable but deadly if ignored.
Explosive Barrels	1×1	Detonate on impact or near explosions — clearing other hazards.

Upgrade Cards

Between floors, choose upgrades to alter your noodle's fate. Experiment and find synergy.

Sample Upgrades

■ **Serpent's Reflex** – Temporarily boosts movement speed after collecting fruit.
■■ **Crash Shield** – Gain a protective layer that prevents one fatal collision.
■ **Chrono Ward** – Slows time briefly when you're near hazards.
■ **Fruit Magnet** – Pulls nearby fruit toward you.
■ **Panic Spark** – Emits a burst when near death, clearing close obstacles.
■ **Double Dash** – Grants a second dash charge before cooldown.

Tips & Tricks

Mastering Noodl is about rhythm and awareness. Here's how to thrive:

Think Ahead: Always leave yourself an escape lane.
Combo Smart: Chaining fruit boosts your score — but don't overreach.
Dash Wisely: Save your dashes for escapes, not flair.
Shop Smart: Some upgrades complement each other beautifully — experiment.
Watch the Arena: Lighting and shader cues hint at danger.
Keep Calm: The deeper you go, the wilder it gets — stay composed.

Thank You for Playing Noodl!

Every shader shimmer, particle burst, and fruit sparkle was crafted with love. Share your scores and stories — and stay tuned for more games from BitGarden.
