Shapeforms Audio Free Sounds Sample Library License Agreement

1. Ownership and Grant of License

Shapeforms Audio is the sole owner and master licensor of this product and its contents.

By downloading this product, you are granted a **perpetual, worldwide, royalty-free, and non-exclusive license** to use the sounds and content (the "Licensed Content"). This license is **non-transferrable** and cannot be resold, gifted, or otherwise distributed to a third party.

This license is granted to you (the Licensee) **for use in creating and developing your media projects.** If the Licensee is a legal entity (e.g., a company, studio, or educational institution), this license permits use by any number of employees or students for projects undertaken by that entity, provided all usage adheres to the restrictions in Section 3.

2. Permitted Use

You may use the Licensed Content, commercially and otherwise, in the creation of **all forms of creative works, media, and projects**, including but not limited to **video games, interactive media,** music production, video, audiobooks, podcasts, and live performance.

You are explicitly permitted to modify, process, edit, or layer the Licensed Content for use in your sound design, provided the resulting sounds are incorporated into a finished creative work and are not redistributed or sold as a resource product.

You are **not required to credit Shapeforms Audio** when using the Licensed Content.

3. Usage Restrictions

This license allows you to use the Licensed Content in your own finished projects, but **not to create products intended for content creation or distribution by others.**

Specifically, you cannot:

- **Redistribute, sublicense, or sell** the Licensed Content in whole or in part, as individual files, or in any format other than as incorporated into your own finished creative works (e.g., a published game, song, or film).
- Use the Licensed Content—even after modification—to create, market, or distribute **any resource product** such as another sound library, sample pack, preset pack, construction kit, or similar collection intended for use by other creators.
- Use the Licensed Content or any other Shapeforms Audio assets in the **training of generative Artificial Intelligence (AI) models.**
- **Asset Protection:** The Licensee must take all reasonable measures to ensure the Licensed Content is integrated into the finished creative work in a manner that **prevents the unauthorized extraction or separation of individual files** by the end-user (e.g., embedding within a game's executable or compiling it into a proprietary, secured sound container).
- **Content ID/DRM:** You cannot use the Licensed Content, in isolation or within a minimally-modified track, to register or claim ownership over any **Content Identification** or **Digital Rights Management (DRM)** system (e.g., YouTube Content ID).

4. Warranty and Limitation of Liability

We do our best to ensure all files are safe and error-free, but as with all digital downloads, we must provide limitations on liability.

The Licensed Content is provided to you **"as is," without warranties of any kind**, express or implied. Shapeforms Audio does not guarantee that the Licensed Content will meet your specific requirements or that the files are entirely free from technical defects or errors.

Shapeforms Audio shall not be liable for any direct, indirect, incidental, special, consequential, or punitive damages arising from the download or use of the Licensed Content, including damages to your computer or system.

Remedy for Dissatisfaction:

- Since this is free Licensed Content, your sole remedy for dissatisfaction is to **discontinue use**.
